## FOR IMMEDIATE RELEASE

### RightHand Technologies Earns AS 9100:2009 Registration for Quality Processes

Chicago IL (Aug 15, 2013) RightHand Technologies, a leading Electronics Design and Manufacturing company specializing in sophisticated Aerospace and Defense applications, has received its certification from DNV Business to ISO 9001:2008 and EN/JISQ/AS9100:2009, the management system standard for the design and manufacture of Electronic and Aerospace

AS9100:2009 is an international standard with specific requirements for quality management systems focused on 1) ability to consistently provide product that meets customer and applicable statutory and regulatory requirements and 2) enhanced customer satisfaction through effective applications of systems and continual improvement.

By extending our ISO 9001:2008 processes to satisfy the more challenging requirements of AS9100:2009, RightHand Technologies' demonstrates a continued commitment to providing complex electronics systems that exceed our customer's expectations.

According to RightHand's President, Steve Valentor, "AS9100:2008 was a critical achievement for us as it future demonstrates our commitment to quality to all our customers, but is especially important for our clients in the Aerospace and Defense markets. These applications demand difficult to achieve certifications such as DO-160, DO-178, and DO-254, and with our Quality Management Systems, we have proven success in design as well as manufacturing."

### About RightHand Technologies

Founded in 2002 and headquartered in Chicago IL. RightHand Technologies is a leading design and manufacturing company focused on aerospace and military electronics, and other industries requiring ruggedized designs, video processing, and low-power portable solutions. The company's expertise focuses on taking complex electronic system requirements from concept through design, specialized manufacturing and sophisticated functional testing in order to create manufactured products that can pass rigorous agency approvals.
